

# San Francisco

## We'll be there. Will you?

PowerSoft Innovations Corporation will have two representatives in San Francisco between January 10 and 14, 2006, to meet with those who are planning on attending MacWorld San Francisco during the week of January 9 – 13. Even though we won't have a booth at the MacWorld Conference, we do plan to have a presence in San Francisco, so you can meet with us when you're not at MacWorld. We'll be staying at the Tuscan Inn at Fisherman's Wharf, and that's where our seminars will be taking place. *Whether or not you're attending MacWorld – and whether or not you're a Mac user – we'd be happy to get to know you.*

## If you're already a LawStream user...

Our first user-training seminar in California will be held on Friday, January 13, 2006, at the Tuscan Inn. Friday the 13<sup>th</sup> could be your lucky day if you're a LawStream user: you'll be able to meet with other LawStream users, ask questions about particular areas of LawStream, offer suggestions about what features you would like to see in future releases of LawStream, and get helpful tips on how to make the best use of the LawStream Law Office Management System. The seminar is scheduled to cover the basics about LawStream, but those basics will most likely include extra techniques that can help you to *get the most out of your LawStream program.*

## If you're thinking about becoming a LawStream user...

A half-hour (or more) with LawStream developers, watching how the program works, and learning how it could work in your office, can be a great way to help you decide if you should get LawStream for your office. If you would like to arrange for a time to meet with us, we'd be very happy to meet with you: contact PowerSoft Innovations Corporation, to arrange for a personal demonstration of LawStream. As you might know, we spend most of our time at our own offices, developing new features for LawStream, and supporting our current users: our visit to San Francisco could be a *unique opportunity for you to learn more about us and our software.*

If you get LawStream in December of 2005, we'll offer you a substantial discount on the user training to be held in San Francisco in January of 2006 (subject to available space, so be sure to decide early, if you want to be guaranteed space at the seminar).

LawStream in San Francisco, during MacWorld Week in January, 2006

## **If you just want a chance to meet with your colleagues and talk about law and computers (or anything else)...**

You want to enjoy your time in San Francisco, and we want to enjoy our time while we're there. Let's get together on Friday night (January 13), and share a meal at one of San Francisco's many great restaurants. We're open to suggestions, and we'll be happy to do what we can to organize a group dinner on Friday night. Let us know you'll be joining us (and let us know your suggestions for a good place to eat). Even if we don't buy you supper, we might at least spring for some good California wine for our tables. *Contact us soon, so we can gather a good crowd for supper.*

## **Whoever you are, whatever you're doing, and whatever kind of hardware and software you're using...**

One of our guiding phrases in our business has been (and still is): "Helping lawyers manage". That applies to whatever you do, that relates directly or indirectly to law. If our software can help you enjoy your "out of office life", then we know we've been successful; if our software can help you become more productive in your office, then we also know we've succeeded in one of our main goals. Even in things like arranging for supper or showing our software to attorneys, we're happy to do what we can, to make the arrangements ... but ... we can't make those arrangements without first hearing from you. *If you are planning on meeting with us (for supper, for the seminar, for a demonstration of LawStream, or just for a chance to sit and talk), please let us know soon.*

The LawStream Law Office Management System is:

- designed
- developed
- enhanced
- supported
- marketed
- sold
- deployed, and
- maintained

by PowerSoft Innovations Corporation. To contact PowerSoft Innovations Corporation, phone 250.247.9999, or send a fax to 250.247.8000, or send email to support@lawstream.com or sales@lawstream.com - however you choose to contact us, we'll be happy to hear from you.
